

Phytophthora and Cucurbit Downy Mildew Meetings

January 23, 2019

**Southwest Michigan Research
and Education Center**

January 31, 2019

Oceana County MSU Extension

February 14, 2019

**Saginaw Valley Research and
Extension Center**

MICHIGAN STATE

UNIVERSITY

Extension

Phytophthora blight and downy mildew can cause tremendous damage in vegetables and other cucurbits.

Attend these workshops to learn:

- the latest on disease biology
- research-based management strategies

MICHIGAN STATE UNIVERSITY | Extension

MSU is an affirmative-action, equal-opportunity employer.

January 23, 2019 (Fresh-Market Vegetables)

Learn the latest on disease biology, spread and control for fresh vegetable producers. Our special guest Dr. Gary Vallad of the University of Florida's Gulf Coast Research and Extension Center has extensive experience with Phytophthora and cucurbit downy mildew in fresh vegetable plasticulture production. He will join Michigan State University's own Dr. Mary Hausbeck for this workshop.

Southwest Michigan Research and Education Center, 1791 Hillendale Road, Benton Harbor, MI 49022

January 31, 2019 (Processing Squash)

Get a gameplan for managing Phytophthora rot in zucchini and winter squash grown for Michigan's processing industry. Our special guest Dr. Chris Smart of Cornell University will team up with Dr. Mary Hausbeck to share real-world management strategies for this disease based on years of research on Phytophthora-infested ground.

Oceana County MSU Extension, 844 S. Griswold St., Suite 400, Hart, MI 49420

February 14, 2019 (Pickling Cucumbers)

Learn the latest research-based strategies for managing cucurbit downy mildew and Phytophthora capsici in pickling cucumbers. Our special guest Dr. Lina Quesada-Ocampo of North Carolina State University--a national leader in research on cucurbit downy mildew--will partner with Dr. Mary Hausbeck to give an in-depth overview of the biology and control of these devastating diseases.

Saginaw Valley Research and Extension Center, 3775 S. Reese Road, Frankenmuth, MI 48734
